WHY CHOOSE A SAME-DAY SURGICAL CENTER?

Having your same-day procedure done at a smaller, privately owned surgical center offers many advantages, including:

- **Safety**—Our surgeons, anesthesiologists and clinical staff take ownership of the center and closely monitor all procedures and processes, so your risk of infection or surgical complications is minimized
- **Convenience**—We're nearby. We're small and specialized, so you won't wait months for your procedure. We also have a complete imaging center on the premises, so you won't have to go off-site
- **Affordability**—Treatment at a multispecialty same-day surgical center is overall more cost-effective compared with hospital-based care. As a result, your co-pay should be lower
- **Compassion**—We're here to answer your questions and address any concerns you may have
- **Comfort**—Our caring staff will put you at ease and you will receive personalized care

WE OFFER

Our highly skilled surgeons perform the latest minimally invasive same-day procedures in the following therapeutic areas:
